Class Levels:

We offer two levels of dancing for classes.
The effectiveness of visiting workshop teachers is often hampered when the ability of dancers in a class is less than expected for that class. As a courtesy to the workshop teachers and fellow dancers, please consider your level of dancing when comparing it with the descriptions below. If you are not sure, please ask your regular teacher.

Level 1:

This level is for the less experienced dancer or someone who enjoys dancing at a less challenging level. Dancers should be able to dance a basic dance after walking through from each position.

Level 2:

For the more experienced dancer who has been dancing and attending classes regularly for at least two years and

- has attended at least one previous
RSCDS workshop

- has a working knowledge of ALL
basic steps and common figures

- is learning more advanced figures
- is able to dance a new dance with

common figures competently after only one
walkthrough

- can correct own errors by the beginning of the next phrase.
